

RAHUL SHARMA

I was about 10 when my passion for architecture began, and it continues till date. Reinforcing my dream, 4 years of architecture education has not only boosted up my energy and enthusiasm to achieve my aim but has also helped me learn to translate a line on a drawing board into practical solutions as bricks for real time Challenges

OBJECTIVE

I look for an opportunity to learn, travel and experience as the next step towards my architecture. Looking forward to work in a team and environment that is challenging, innovative and motivating towards achieving new possibilities
