# GLASS *for* ARCHITECTURE

MARVEL GLASS

Contemporary, Versatile & Sustainable

Commenced in the year 1995, marvel glass private limited has endeavoured and scaled higher challenges, till date, in the field of glass.

As an outcome of innovative mindset, the company has been a market leader/pioneer for many architectural glass concepts, which include safety glass, bend safety glass, back painted glass, highly creative glass interiors, chemical coating on glass for protection from permanent stains and introduction of tensile roofs combining glass and textile.

Over the years, we have designed and executed highly interesting glass applications, after through engineering analysis of its sustainability in use, such as glass bottom swimming pool, glass bridge/carway, frameless glass dome, glass sofas, glass as structural element, bullet resistant glass using combination of glass and polycarbonate and back painted glass for external conditions.

Engineering other glass compatible materials such as ferrous and non ferrous metals and wood, appropriately, ensuring higher utility of glass, higher ambience, better solar performance and balance economy of projects, is an added contribution and strength of the company.

Directed under the leadership of two directors, both technical and sound administrators, the company has always cherished advanced product developments and strategic market approach, which underlines the consistent growth and success of the company, in a highly competitive and cost prohibitive glass market.

Maintaining the core purpose of this beautiful natural material, 'glass', which is allowing natural light, higher transparency for space enhancement, better visibility, easy to clean factor and finally unmatched aesthetics, is the main dictum of our company. Glass is green and environmental friendly whenever Marvel Glass, uses it.

Our website [www.marvelglass.com](http://www.marvelglass.com) comprehensively covers the spectrum of our work for above applications.

## Products

Swimming Pool Floors in Glass

Revolving Doors

Back Painted Glass

Glass Interiors

Curved Glass Canopy

Membrane and Glass Roofs

Glass Installations

Glass Maintenance

Security Glass

Glass Domes
