

ABOUT SHEMROCK JUNIOR – WHERE YOUNG MINDS GROW!

SHEMROCK Junior is a preschool in Paschim Vihar, New Delhi. Started in the year 2000, SHEMROCK Junior is a branch of SHEMROCK Chain of Preschools, which is India's 1st Playschool Chain, which is credited with revolutionising the concept of early childhood education since 1989, by pioneering a vibrant and child-friendly system of learning. "The first five years have so much to do with how the next 80 turn out." The initial years are the most critical in shaping the lives of young children. Early experiences have a direct impact on how children develop their skills and abilities.

We, at SHEMROCK Junior, believe that preschool is an opportunity for growth. It's a place where child can learn to share, follow instructions, explore the environment and begin the foundation that shapes their learning achievement at elementary school, in the family and community, and in life in general. Early Childhood Education is a time where children particularly need high quality personal care and joyful learning experiences which nurture their young minds to develop and stimulate their curiosity about the environment around them. The Early Childhood Education programme at SHEMROCK addresses the total personality development of your child in terms of physical, academic, social, emotional, cognitive, language and intellectual abilities.

We aim to foster the development of imagination and creativity in children as each child is unique in its own way. We provide right encouragement, motivation and guidance where young children can explore the environment and develop their motor skills, self-confidence and self-dependability.

"Early Childhood Education is a very important period of life. It is a period when children learn an enormous amount about the everyday world. It is also the time during which young children acquire lifelong attitudes toward themselves, toward others, and toward learning."

At Shemrock Junior, we create friendly, pampered and cheerful atmosphere for our little ones which can enhance their ability to express their thoughts and feelings freely. We believe in

channelizing child's energy through fun and recreational activities and to manage child frustration, anger and aggressive behavior.
