

SIAA

India's 1st Advanced Automation Research Center

SIAA CERTIFICATION IN AI

ARTIFICIAL INTELLIGENCE TRAINING COURSE

SIAA's Artificial intelligence course help you learn about AI and its application. The course will enable you with knowledge about machine learning, algorithms and model generation. You will gain hands-on experience on tools for data cleaning and model generation. It will help you master the latest AI tools and enhance your professional efficiency.

About US

SIAA is India's 1st Advanced automation research centre which is responsible for driving applied research for multiple industries like agriculture, manufacturing, construction, healthcare and defence. SIAA, being the fastest-growing academia brand in Asia, also provides training and certification in advance technologies to academia and corporate that increase professional's skill capabilities.

Course Benefits

- ➡ Prove Your AI skill & understandings
- ➡ Gain in-depth knowledge of AI & Its implementation
- ➡ Implement your skills in data cleaning & modeling
- ➡ Readiness for advanced algorithms development
- ➡ SIAA Certification in AI

Career Facts

Top Job Functions

AI is the most famous technology in the world right now. Many of the countries have set-up separate ministry for this technology. The demand for this technology is increasing every day, so as the experts. This course is ideal for who wants to kick-start their career in this high-demand domain.

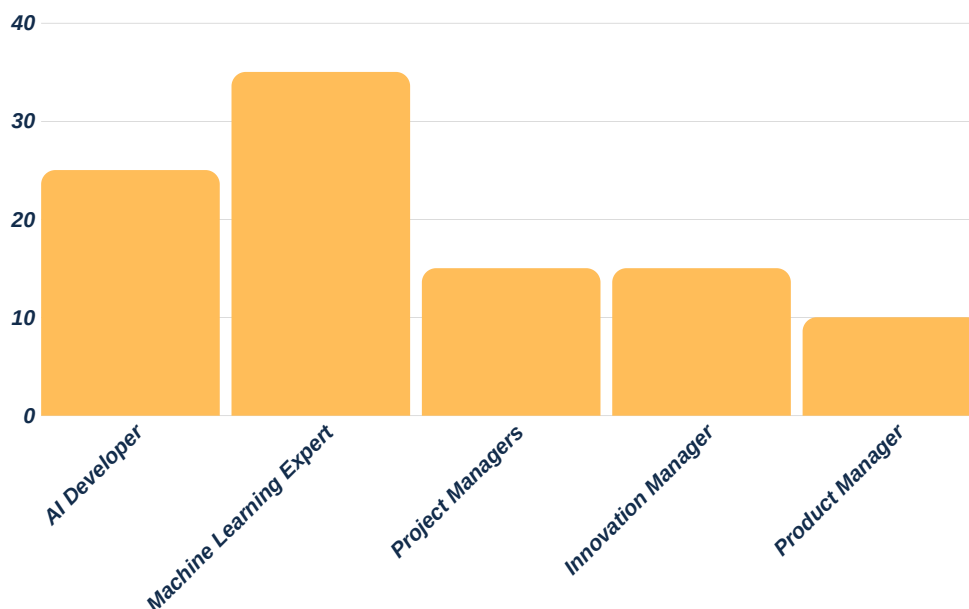

Figure: Bar Chart (Top Job Function)

Program Features

- ➡ Real-time industry projects
- ➡ 30-days of intense learning
- ➡ Instructor-led training
- ➡ Flexible to choose classes
- ➡ Accredited SIAA Certificate

Who Should Enroll

- ➡ Basic programming background
- ➡ Hobbieist
- ➡ Engineering Students
- ➡ Engineering Post-Grad students
- ➡ Software Engineer

Table of Content:

Lesson-1 Introduction to AI

- Introduction
- History
- Course logistics

Lesson-2 Basic Concept

- ML basics
- DL basics
- Data Preprocessing
- Neural Network

Lesson-3 Machine Learning

- Regression
- Classification
- Clustering
- NLP Basics

Lesson-4 Artificial Intelligence

- DQN
- DCQN

Lesson-5 Deep Learning

- ANN
- CNN
- RNN
- LSTM
- DNLP

siaa.tech

SIAA is an initiative by Schleife Automation Company which offers advance level automation training solutions to corporate and academia. SIAA is developing a degree independent platform for professionals across the globe to validate the skill set. SIAA has introduced the most facilitated technology training of automation with the collaboration of industry experts and hi-tech companies. We made it possible for the learners to feel the real-time industry experience in the live environment and enables them to tackle the real industry problems.
