

About Us

SS saffron is a company trying to save diminishing saffron cultivation in Kashmir. The brand plans to accomplish this by selling traditionally grown saffron right from farmers of Kashmir. SS saffron is bridging the gap between farmers and customers, farmers who have less or no access to the online business and with the changing dimension of the market where the online market is replacing the traditional way of doing business. SS Saffron provides opportunities to small farmers in selling their product to the world under the brand of SS saffron. This motive is enough to make SS saffron a brand worth attention. "Brand", "Quality" and "Purity" Should motivate you into repeated purchases of the product.

SS brand Pure kashmiri saffron

SS saffron is “organic saffron” which is cultivated for optimum quality in Pam pore Kashmir, one of the world's acknowledged ‘clean’ environments, without any chemical fertilizers Saffron has recently been scientifically proven to provide a host of health benefits, and our product contains absolutely no additives at all. For a full comprehensive study of the health benefits Refer to health benefit section on website SS saffron is “Category A 1” grade and It produces intense flavor, color and aroma and only contains the stigma. No adulteration in any form Only a small amount of SS saffron is required to flavor a dish. For example, 1-gram is more than sufficient to flavor, color and add aroma to up to 5 kilos of dry white rice we specialize in providing the finest and purest quality of 100% premium saffron spice. Every individual saffron crocus flower contains three red stigmas and yielding just only one gram of saffron takes about 200 saffron crocus flowers.
