“The most pious and purest place on earth is – A Temple”

Hindus believe that their lives are merely stages in the progression to ultimate enlightenment. The temple is a place where God may be approached and where divine knowledge can be discovered. All aspects of the Hindu temple focuses on the goal of enlightenment and liberation—the principles of design and construction, the forms of its architecture and decoration, and rituals performed. It is the focus for all aspects of everyday life in the Hindu community—religious, cultural, educational and social. A place to experience contentment, peace, positivity, learning, religion, culture, morals i.e. what is right and what is wrong, and how we should behave in order to live a happy life.

For this, IIMT Group of Colleges is surrounded by two culturally rich temples. One beautiful Hanuman Mandir and another Sai Baba Mandir which is an extremely beautiful and magnificent replica of Shirdi Sai Mandir.
