Why VisaBuddy?

Our firm is licensed to practice as an immigration consultancy – a process that requires passing of a knowledge and ethics examination based on the Canadian Immigration Act, rules and regulations.

Our firm offers advice and consultation on Canadian immigration matters and we keep up to date with the latest changes in the rules and regulations. We accept only those cases that we feel have the merits to get an immigration or visa status.

On average our fees are less than those of our competitors. Each case file is reviewed by a licensed professional consultant, not a paralegal or secretary. We respond to each correspondence in a timely manner and are available to communicate with clients 24/7.
